

A Farewell Speech 6A Fong Pak Ching

Good morning, everyone. It's surprising how time flies. Today is the last day of our primary school life. I'll never forget the amazing and memorable experiences I have had in these six years.

We'll always remember the trip to Beijing. Climbing on the Great Wall was a difficult task. I learnt the history of Beijing. We'd like to thank our parent tutors because they spent a lot of time to take care of us.

We'll never forget the trip to Singapore as well. Visiting the Little Indian was a difficult task. I tried different kinds of Indian food. It was a wonderful experience. We'd like to thank our teachers because they spent a lot of time to take care of us.

We'll never forget the moment we won the handball competition. We were so proud of ourselves. We're thankful to Miss Choi for teaching us handball. She spent a lot of her spare time practicing with us.

Finally, I would like to thank all of our teachers. You taught us to know right from wrong. You worked hard on organizing a lot of fun activities for us. I also want to say thank you to all of our parents. You always support us and know our needs. I want to thank our schoolmates too. Thank you for giving me a helping hand when I was in trouble. I hope we can be friends forever.

I will always miss this school and all the good times I have had with all of you. I wish everyone a bright future. Good luck to you all. Thank you.

There are so many endangered animals in the world. Why do they become endangered? What should we do to help them?

Pandas are one of the animals which are endangered. People cut down so many trees. They also destroy a lot of bamboo forests. Therefore many pandas become homeless. They will not be able to find food unless we stop destroying bamboo forests. If we want to save pandas, we should stop cutting down bamboo. We should also keep telling our families and friends to protect pandas.

Dolphins are one of the animals which are endangered too. Factories dump so much toxic waste into the sea. Therefore many dolphins die. They will soon be extinct unless factories stop dumping so much toxic waste into the sea.

Elephants are also one of the animals which are endangered. People hunt many elephants. They use elephant tusks to make ivory ornaments. Therefore elephants become endangered. Hunters will keep hunting elephants unless people stop buying ivory ornaments. If we want to save elephants, we should stop buying those products.

Animals are also part of our Earth. Let's work together to protect endangered animals. It is sad to see animals become extinct.

Help the animals! 6C Chan Wing Tung Law

There are so many endangered animals in the world. Why do they become endangered? What should we do to help them?

Pandas are one of the animals which are endangered. People cut down so many trees. They also destroy a lot of bamboo forests. Therefore many pandas become homeless. They will not be able to find food unless we stop destroying bamboo forests. If we want to save pandas, we should stop cutting down bamboo. We should also keep telling our families and friends to protect pandas.

Dolphins are one of the animals which are endangered too. People pollute the water every day. They dump so much toxic waste into the sea. Therefore dolphins become ill and die unless we stop dumping toxic waste into the sea. We need to tell our friends to save dolphins if we want the dolphins to be safe.

The third kind of endangered animals that I want to talk about is elephants. Hunters kill elephants because people like buying ivory ornaments. Therefore elephants become endangered unless people stop buying ivory ornaments.

Animals are also part of our Earth. Let's work together to protect them!

A genie 6D Isaac Ng

One day, Eric helped his mum clean the house. When he threw away the rubbish, he dropped a box which had a glass bottle inside. Unfortunately, the glass bottle was broken. Suddenly, a genie appeared and Eric was surprised. 'Thank you for saving me. I can give you a wish. What do you want?' the genie asked. 'I want to be taller,' Eric replied.

After a while, Eric started to grow but soon he was worried because he was too tall. He was as tall as a tree. Eric cried, 'I want to be shorter.' The genie said, 'I'm afraid I cannot help you. You can go to the top of the hill to look for the wizard. I think he can help you,' suggested the genie. Eric replied, 'that's a good idea. However we need to be hurry.'

At last, they found the wizard. The wizard helped Eric return to his normal size. Eric said, 'thank you, wizard' and he went home happily.
