

★ Our dream jobs 6A Lai Yuen Ching

• What do you want to be when you grow up? After interviewing Joshua and Eunice from Class 6AB, here is an interview report.

I want to be a doctor when I grow up because I think I can help people. If I become a doctor, I will cure people who are sick. I will work in a hospital. I need to be attentive. I need to be caring too, so that I can take care of patients with heart problems. I should study hard to prepare myself.

Other students in our class also have dream jobs. Joshua wants to be a Youtuber when he grows up because he thinks it can help people to relax. If he becomes a Youtuber, he will film himself playing games. He will work at home. He needs to be hard-working. He needs to be funny too, so that people like to watch his videos to learn how to play the games. He should learn how to edit videos to prepare himself for the job.

Eunice wants to be a Youtuber too when she grows up because she thinks she can show her favourite things. If she becomes a Youtuber, she will make a lot of videos. She will work at home. She needs to be creative. She needs to be confident too, so that she can be persuasive. She should study hard and practice her speaking skills to prepare herself.

They say, 'You have to dream before your dreams can come true.' I hope we can all do what we dream of when we grow up!

Movie review: Mulan 6B Lam Tin Long

Mulan is about a girl who saves China. The Huns invade China so the Emperor wants his men to fight. Mulan doesn't want her father to join the war, so she dresses up as a man and joins the army.

At first, Mulan doesn't do well in the training because she is too weak. The captain asks her to go home. She feels embarrassed and sad, but she wants to stay to prove herself. She trains herself hard and turns into a good soldier.

Mulan saves the captain when they fight with the Huns. She is injured and the captain finds out that she is a girl and asks her to leave. However, she goes to the palace and fights with the leader of the Huns. At last, she saves the emperor and China. Everyone bows to her and respects her.

I felt excited when I was watching Mulan because there were many action scenes. At last, Mulan saved the country and I learnt that girls were not always weaker than boys. We should respect everyone.

There are many problems in Africa. There is not enough clean water and medicine for people who live in Africa for a number of reasons.

Firstly, there is not enough water in some places. Droughts often make the land dry, so the people who live in Africa are worried because sometimes they can't grow crops. As a result, many people do not have enough food and water to survive. Moreover food prices are very high, so some people cannot afford to buy food. Therefore, people are hungry sometimes.

Thirdly, the water is dirty so people often get sick. However, there is not enough medicine for everyone. It is extremely hard to grow crops because the soil is very poor. There is not enough food for the people.

Students in Africa also face a lot of problems. They have neither enough books nor stationery at school. Students have to share books so that they can learn things. Also, some schools don't have enough chairs, desks or blackboards. There are also not many teachers which means there are not many lessons.

There are a lot of things that we can do to help children and people in Africa. We can donate money or food to charity. We can also collect second hand clothes or books. Finally, we can sell flags on the street, so that we can collect some money and buy some daily necessities to help the people in Africa. If I become a social worker, I will go to Africa to teach the children and help the people.

Movie review: Mulan 6D Liang Eddie

The emperor orders every family to send one male to join the Chinese Army and protect the country against intruders. The only male in Mulan's family is her father, and he is not well so he cannot fight. So Mulan pretends to be a man and joins the Chinese Army. Mulan creates an avalanche and buries the intruders. But the intruders were tough, so they survived. The Chinese people think they are safe. However, the intruders trick the emperor and try to kill him but Mulan, Mushu and Mulan's friend defeat the intruder by using a firework rocket. The intruder turns into a firework!

I thought this movie was quite amusing. I almost laughed my head off. I think people will like this movie because we learn that everyone can be a hero, no matter if they are male or female. You just need to train hard to become a hero.

My favourite character in this movie was Mulan. She worked hard to save China. She didn't care that she was a woman. She replaced her father to join the Chinese Army, although she knew it was very dangerous.
